PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center IPIC (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Rezh Ammunition Depot South-Southwest is located (Figure 1) 3.8 kilometers (km) south of Rezh (57-22N 061-24E) and 73.7 km northeast of Sverdlovsk (56-52N 060-37E). The installation is served by road and by a spur of the Sverdlovsk-Rezh rail line. A support area is located one km north of the storage area.

The installation covers approximately 650 acres (Figures 2 and 3) and consists of 88 buildings, of which seven are administrative,

four barracks, 61 storage, three general storage, one transshipment shed, one possible guard shack, and 11 general support. The installation is divided into a double-fenced storage area and a support area.

25X1D

Recent winter coverage by Missions [REDACTED] and [REDACTED] indicate no apparent change since initial coverage by Mission [REDACTED]. The installation was covered by nine KEYHOLE missions between [REDACTED]

25X1D

DESCRIPTION OF INSTALLATION

Railroad Service

A single spur serves the storage area.

Road Service

A probable secondary road connects the installation with another secondary road from Rezh to Asbest (57-01N 061-28E).

Administrative and Troop Housing Areas

Area D1 contains seven administrative, four barracks, three general support, and 12 storage buildings. The area, located within the support

area, is connected to the storage area by a probable secondary road.

Area D2, located adjacent to the northern tip of the storage area, contains one possible guard shack and two general support buildings.

Ammunition Storage Area

Area F contains sixty-one 145- by 35-foot storage buildings and one 390- by 45-foot transshipment shed. The area is road served and has rail access. It has shown no apparent change since [REDACTED]
